# **M/S THE BEAGLE GALAPAGOS CRUISE 8 DAYS/ 7 NIGHTS For Buyers And Suppliers**

## **SPECIAL OFFER GALAPAGOS**

The Beagle is named after HMS Beagle, in which Charles Darwin made his famous voyage to the Galapagos Islands, and later wrote his theory of evolution based on his findings in this extraordinary archipelago. You will feel the sensation of space on board the Beagle for kicking back and relaxing between your unforgettable visits on land. The saloon offers a small library of Galapagos literature, and a selection of games. All around the wide decks, comfortable seating allows you to choose sunshine or shade for lounging and observation. Breakfast, lunch and dinner are served on board with the exception of the day you visit Puerto Ayora, when you will enjoy a meal in the highlands of Santa Cruz. Meals blend Ecuadorian and continental cuisine and are served on deck or in the saloon. Coffee and tea are available on deck, cold drinks including beer and a selection of wine and cocktails you may purchase from a well stocked bar. Refreshing snacks, especially at teatime, round out your daily menu.
