This program combines two worlds of Ecuador. Sacha Lodge at the Amazon region, with a deep jungle program, accessible by plane from Quito and canoe from Coca city. Delve into jungle life with forest walks, caiman-spotting, bird watching, paddling through creeks, climb to the very top of a giant kapok tree, swim in a black-water lake, and the one-of-a-kind Canopy Walk, are essentials of the expedition. The second part will take you to a historic retreat located in the northern Ecuadorian Andes into a valley with the folds of lush, green mountains. Hacienda Piman is a place redolent with peace, where you'll enjoy comfortable rooms and social areas amid modern and traditional architecture. Get a closer look at indigenous Ecuadorian culture and its wonderful rural landscapes through the winding roads of the Andes. A complete experience of the north, full of adventure, culture and nature. From the visit of symbolic places such as Quitsato monument right on the Equator line, the Andean Spectacled bear Viewpoint, the petroglyphs of Shanshipamba, the Old town of Ibarra, a train ride through mountains and sugarcane plantations, a Kichwa workshop, the Otavalo Market, home of the most colorful in Ecuador and the largest indigenous markets in South America to the Arrayanes Forest, which includes an immense variety of landscapes, color and beauty of a thousand years.
