Karanki-Magdalena Community

Experience the unique culture of the Karanki-Magdalena, an Indigenous Community on the slopes of the Imbabura Volcano near Otavalo. Through the Go Galapagos social program, travelers are welcomed into local homes for a two-day, one-night stay, immersing themselves in daily activities and outdoor excursions.

Engage in gastronomy lessons, milking, shepherding, hiking, and horseback riding in nearby mountains like Cubilche Mount. By night, enjoy traditional folklore dances performed by the community's youth. Embrace cross-cultural exchanges and discover the rich heritage and natural beauty of this region.

Itinerary

Let's head north from Quito, cross the equator, and savor local flavors while visiting the vibrant Otavalo market. We will also explore Peguche and Cotacachi, marvel at Cuicocha Lagoon, and spend the night in the wonderful Magdalena Community, immersing ourselves in every local activity. - Then, enjoy a delightful lunch at a nearby hacienda before returning to Quito.
